

A low-angle photograph of a dense forest of tall, thin trees with green foliage, looking up towards a clear blue sky. The text is overlaid in red on this image.

## Commitment to the Forest Stewardship Council's Principles and Criteria

Sinar Mas Paper (China) Investment Co. Ltd. and its pulp, paper and forest operations, under the Asia Pulp & Paper brand, are committed to sustainable forest management. Underpinning this commitment is the maintenance of our risk assessment programme for sourcing wood-based raw materials supplying our pulp and paper manufacturing operations.

Furthermore, Sinar Mas Paper (China) Investment Co. Ltd. is committed to the fundamental principles of the Forest Stewardship Council, and we take all reasonable measures to avoid sourcing wood-based raw materials (pulpwood, wood chips and wood pulp) linked to any of the following categories:

- 1) illegally harvested;
- 2) harvested in forests being converted to plantations or non-forest use;
- 3) harvested in violation of traditional and civil rights;
- 4) harvested in forests where high conservation values are threatened by management activities;  
or
- 5) from forests in which genetically modified trees are planted.
